## Bridge Closure Information

*Dover* – The Delaware Department of Transportation (DelDOT) reminds motorists that as of 12 noon on Saturday, August 27, all bridges in the state remain open.

The Indian River Inlet Bridge may be closed to all traffic as early as 3 p.m. on Saturday, and will definitely be closed by 6 p.m. DelDOT plans to close other bridges when sustained winds reach 45 MPH.

Drawbridges across the state will be closed to water vessels at 4 p.m. and will not be opened after that time to permit boats to pass through, however drawbridges remain open for motor vehicles to cross the roadway and will remain open unless otherwise announced.
